

**To help you understand this important
enclosed information and your child's
progress, come to our session:
UNDERSTANDING ASSESSMENT RESULTS**

Wednesday, May 25, 2016
1:30-2:15 p.m. at McCracken School
OR
Thursday, May 26, 2016
5:00-5:45 p.m. at Meyer School

Please bring
the enclosed
reports with
you to the
meeting!

Here's what parents said after attending the first session:

"Thanks so much for today's session on Understanding Assessment Results. It was so informative and helped me better understand my children's results. I had all my questions answered. It all makes much more sense to me."

-Natalie T., parent of 3rd, 4th and 6th-graders

"After attending the Understanding Assessment Results meeting at McCracken, I felt way more confident in reading and understanding my children's AIMSweb and MAP scores. I really appreciated the staff providing a detailed description of all the data on the reports and how the school uses the data to understand the "big picture" about my children. I walked away knowing how to better support my children in their areas of need."

-Janet E., parent of 3rd-grader and Kindergartner

Facilitators: *Ms. Brittney Tiehen, District MTSS Coordinator*
 Dr. Eden Olson, District Data Coordinator

Child care will be available.
