Skokie School District 73.5 Land Acknowledgement Statement

At Skokie School District 73.5, we respectfully acknowledge that we are on the lands of the Sioux, Ho-Chunk and Winnebago, Myaamia (Miami), Potawatomi, Peoria, and Kickapoo Nations. These Nations were forcefully removed from their traditional territories and these lands continue to carry the stories of these Nations and their struggles for survival and identity.

As a public institution committed to “building a foundation for learning, leadership, and life” and educating our students to be critical thinkers who want to make the world a better place, we have a particular obligation to recognize the peoples of these lands and the histories of dispossession upon which our schools rest.

As educators, we recognize that by being silent, we are complicit in the ongoing oppression of Indigenous peoples and we take this first step in fulfilling our responsibility to critically look at colonial histories and their present-day implications as we pay respect to the keepers of the land, and the land itself.

District 73.5 Equity Mission Statement

We believe that inclusivity and belonging are the foundation for equity.

All children can learn, at high achievement levels, when equity is infused into every aspect of education.

At District 73.5, we acknowledge the systemic inequities present in school systems and recognize the impact they continue to have on marginalized communities. We commit to teaching, learning, and growing in order to identify and dismantle inequitable systems and to create a community where barriers are removed so that everyone can reach their full potential.

We believe that students succeed when they can see themselves represented in our staff, curriculum, opportunities, and our shared environment. We accomplish this through professional development, curriculum revision, community engagement, and systems evaluations.

We recognize the need to teach our students to identify the origins of unjust systems and empower them to use their critical thinking skills and agency to responsibly disrupt the policies and practices that perpetuate inequalities.
